AMENDMENTS TO THE CLAIMS

1. (Previously Presented) A method of treating arthritis, osteoporosis and ruptured disc comprising administering to a patient in need thereof a pharmaceutically acceptable amount of the compound of formula (I):

$$\begin{array}{c|c} HO & OH \\ \hline R_1 & O & (I) \\ \hline R_2O & O & Gk \\ \end{array}$$

in which

R1 represents a hydrogen atom or an alkyl group; and
R2 represents a hydrogen atom; along with a pharmaceutically
acceptable adjuvant.

2. (currently amended) A pharmaceutical preparation containing as an effective component a compound represented by the following formula (I):

$$R_1$$
 R_2 O O O O O

in which R_1 represents a hydrogen atom or an alkyl group and R_2 represents a hydrogen atom, wherein the pharmaceutical preparation

has a potent effect against osteoporosis, arthritis and ruptured discin combination with a pharmaceutically acceptable auxiliary, diluent, isotonic agent, preservative, lubricant and solubilizing aid, which is formulated in the form of a pharmaceutically acceptable preparation and has a potent effect for osteoporosis, arthritis and ruptured disc.

3. (Currently Amended) A pharmaceutical preparation containing as an effective component a compound represented by the following formula (I):

in which R_1 represents a hydrogen atom or an alkyl group and R_2 represents a hydrogen atom, and one or more materials selected from the group consisting of allendrate, tamoxifen, vitamin D_3 , parathyroid hormone (PTH), sulfasalazine, thioredoxin reductase, alendronate, raloxifene, calcitonin, estradiol, genistein, 1,25-dihydroxyvitamin D_3 , estrogen receptor modulator, biphosphonates, shinbarometin and shinbarometin acetate wherein said pharmaceutical preparation has a potent effect against osteoporosis, arthritis and ruptured disc, in combination with a pharmaceutically acceptable

Appl. No. 09/995,691

auxiliary, diluent, isotonic agent, preservative, lubricant and solubilizing aid, which is formulated in the form of a pharmaceutically acceptable preparation and has a potent effect for osteoporosis, arthritis and ruptured disc.

4. (canceled)
